2027 CALENDAR

~ The Island of Cascading Wonders ~

Sri Lanka boasts one of the world's highest waterfall densities, with over 380 majestic cascades across its tropical landscape. Far beyond a visual marvel, these waterfalls form the vital arterial system of our nation by nourishing agricultural lands, powering clean renewable energy, and driving local eco-tourism.

At **SDB bank**, our holistic sustainability strategy is deeply rooted in biodiversity conservation, recognizing that healthy natural ecosystems are the foundation of true economic resilience and thriving rural communities. Protecting these fragile gifts of nature is a shared social responsibility, essential to ensuring future generations inherit a vibrant and green Sri Lanka.

The featured waterfalls in this calendar are custom watercolour art illustrations, thoughtfully crafted to capture the serene majesty of Sri Lanka's natural heritage.
